May 11, 2005

Members of the Village Council Village of Mayville, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Mayville, Michigan, as of and for the year ended March 31, 2005, which collectively comprise the basic financial statements of the Village's primary government, as listed in the table of contents. These financial statements are the responsibility of the Village of Mayville, Michigan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, standards prescribed by the State Treasurer, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Mayville, Michigan, as of March 31, 2005, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America and with applicable rules and regulations of the State Treasurer.

Members of the Village Council Page Two May 11, 2005

In accordance with Government Auditing Standards, we have also issued our report dated May 11, 2005, on our consideration of the Village of Mayville, Michigan's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

The management's discussion and analysis (identified in the table of contents) is not a required part of the basic financial statements but is supplemental information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

As described in Note 11, the Village of Mayville adopted provisions of Governmental Accounting Standards Nos. 34, 37, 38, and GASB Interpretation 6 as of April 1, 2004. This results in a change to the Village's format and content of the basic financial statements.

The accompanying required supplemental information and other supplemental information, as identified in the table of contents, are not required parts of the basic financial statements. The required supplemental information is information required by accounting principles generally accepted in the United States of America; the other supplemental information is presented for the purpose of additional analysis. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Mayville, Michigan's basic financial statements. The required supplemental information and other supplemental information have been subjected to the auditing procedures applied in the audit of the basic financial statements, and in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Lardner, Provensano, Dehauman & Themas P.C.

#### Overview of the Financial Statements

The Village of Mayville, Michigan's (the "Village") annual report consists of this analysis (management's discussion and analysis), government-wide financial statements, fund financial statements, notes to the financial statements, required supplemental information, and other supplemental information.

This fiscal year, the Village fully implemented the Governmental Accounting Standards Board's (GASB) Statement No. 34. Since this is the first year of adoption, prior year comparison is not available. This comparison will be available for the fiscal year ending March 31, 2006. As allowed by GASB 34 for Phase Three governments, the Village of Mayville did not recognize infrastructure assets retroactively. This accounting pronouncement, among other changes, adds government-wide financial statements, which were designed to provide a broad overview of the Village's finances. The government-wide statements are presented on a full accrual basis of accounting, with an emphasis on measuring all economic resources and not just current financial resources as measured in the individual fund statements. These statements make a distinction between governmental activities for example public safety and public works, and business-type activities such as the provision of water and sewer service.

One government-wide statement, the statement of net assets, presents information on all of the Village's assets and liabilities with the difference shown as net assets. Increases or decreases of net assets from period to period provide useful information on the direction of the Village's financial position over time.

The other government-wide statement, the statement of activities, provides information on how the government-wide net assets changed during the fiscal year. This statement provides information on income, expenses by function, and other increases or decreases in net assets.

Following the government-wide statements, individual fund financial statements are provided for the Village's major funds and compiled financial information is provided for non-major funds. These statements are grouped into governmental funds, which account for the cost of providing governmental-type services for example public safety and public works and proprietary funds which account for business-type activities such as provision of water and sewer services.

#### Overview of the Financial Statements (cont.)

Reconciliations between the individual fund statements and the government-wide financial statements are provided following the individual fund statements. The differences are primarily related to inclusion of capital assets and recognition of certain receivables and long-term liabilities in the government-wide statement of net assets, which are not included in the fund balance sheets. Other differences relate to the timing of reporting capital outlays and debt principal repayment in the fund statements and the timing of the recognition of certain revenues and expenditures such as lease proceeds and accrued interest in the individual fund statements versus the government-wide statements.

#### Financial Position and Results of Operation for the Village as a Whole

The Village of Mayville's Governmental activities had an increase in net assets of \$17,300 for fiscal year 2004-05. This is the consolidated result of the General Fund, Special Revenue Funds, and Debt Service Fund.

Net assets of the Business-type activities (Water and Sewer Funds) increased by \$44,710 for fiscal year 2004-05.

In a condensed format, the tables below show the net assets and changes in net assets as of March 31, 2005.

Table 1	Government Activities	Business-type Activities	Total
Assets Current assets	\$ 332,174	\$ 277.358	¢ 600.500

#### **Governmental Activities**

The Governmental activities of the Village increase total Net Assets by \$17,300. This increase was attributed to the Village reducing the overall expenditure level below the anticipated reduction of State shared revenues.

#### **Business-type Activities**

The Village operates a water department and a sewer treatment facility. These departments operate from fees charged to the Village residents. Rates for these services are set to provide operations, maintenance, and payment of bond requirements. The Water Fund was able to achieve a positive change in net assets this fiscal year from an increase in tap in fees effective in the prior year and a trimming of the expense budget. In addition, in previous years there were significant expenditures for well improvement that did not occur in this fiscal year. The Sewer Fund had an increase in net assets mainly due to less expenditures this year.

## Financial Position and Results of Operation for the Village as a Whole (cont.)

#### **Analysis of Individual Funds**

A decrease of \$2,206 in the fund balance in the General Fund is due to an increase in the general operating expenses; namely, the Fire Department expenses have increased and there were additional building and equipment maintenance expenses.

The Major Street Fund and Local Street Fund both had increases of \$8,023 and \$3,366, respectively, in fund balance. The Village was able to keep the expenses at a minimum and did not make any capital expenditures during the year in anticipation of future street projects.

The DDA had an increase of \$21,972 in the fund balance. The DDA has plans for significant projects in the future which will spend down the fund balance.

The Debt Service had an increase of \$8,107 as expected. The money in this fund will be used to pay off the principal and interest on bonds in future years.

#### **General Operating Fund Budget Highlights**

The original General Fund budget was prepared based on actual results from the previous fiscal year. There were two significant variances between the original and final amended budget. The variance of \$47,000 in general government original budget was to cover expenditures for the Village Manager. To cover the expenditures, the original budget contained a \$40,000 transfer, recorded as other financing sources, to the General Fund from the DDA, Water, and Sewer Funds to subsidize the Village Manager's salary. Those items were amended at the end of the year because the Village Manager did not start until April 1, 2005, which is after the fiscal year ended. In addition, the original budget anticipated a reduction in part-time police expenses. The amended budget added some additional part-time police hours. Capital outlay was also increased to include the purchase of some new fire equipment and a police car.

The difference between the amended budget and actual results was the omission of the proceeds of the capital lease of the police car. After the amended budget was completed, it was discovered that the total proceeds of the police car lease needed to be in the budget.

#### Capital Asset and Long-term Debt Activity

Major capital asset additions in governmental funds consisted of the purchase of a new police car and new computer for the police department.

The Village entered into a capital lease agreement for the purchase of the new police car. The Village did service all current outstanding debt on a timely basis.

#### **Economic Factors and Next Year's Budgets and Rates**

The Village of Mayville hired a Village Manager as of April 1, 2005, and has included that additional expense in the 2005-06 fiscal year. The Village Council is currently having a feasibility and water rate study completed to determine what additional funds will be needed in the Water Fund for arsenic treatment as required under new DEQ guidelines.

#### Contacting the Village's Financial Management

This financial report is designed to provide accountability of our stewardship of the resources provided by our citizens, taxpayers, and customers and to provide financial information to the Village's investors and creditors. If you have any questions about this report or need additional financial information, contact the Village Clerk, P.O. Box 249, 297 E. Ohmer Road, Mayville, Michigan 48744-0249.

#### NOTE 1--Summary of Significant Accounting Policies

The Village of Mayville, located in Tuscola County, Michigan, was incorporated as a general law village under the provisions of Act 3 of 1895, as amended. The Village operates under elected Village Council to provide municipal services to approximately 1,055 residents.

The criteria established by the National Council on Governmental Accounting (NCGA) for determining the various governmental organizations to be included in the reporting entity's financial statements include oversight responsibility, scope of public service, and special financial relationships. On this basis, the financial statements of certain other governmental organizations are not included in the financial statements of the Village. Educational services are provided through a local school district, which is a separate governmental entity, and therefore, it is not represented in the financial statements included herein. In addition, this report does not include the financial statements of the Mayville Public Library or Mayville Area Ambulance Service, which operates autonomously under intergovernmental service agreements.

The financial statements of the Village of Mayville are prepared with Generally Accepted Accounting Principles (GAAP). The Village reporting entity applies all relevant Government Accounting Standards Board (GASB) pronouncements. Proprietary funds apply Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in which case GASB prevails.

#### Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the governmental and business-type activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items that cannot be attributed directly to any one function are included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds, proprietary funds.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Village considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures and expenditures relating to compensated absences are recorded only when payment is due.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

Property taxes and State-shared revenues are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period.

All other revenue items are considered to be measurable and available only when cash is received by the Village.

A fund is defined as a fiscal and accounting entity with self-balancing set of accounts which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. The Village uses the following fund types:

#### Governmental Funds

<u>General Fund</u>--The General Fund is the general operating fund of the Village. It is used to account for all financial resources, except those required to use another fund.

<u>Special Revenue Funds</u>--Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

<u>Debt Service Funds</u>--Debt Service Funds are used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest, and related costs.

#### Proprietary Funds

<u>Enterprise Funds</u>--Enterprise Funds report operations that provide services to citizens financed primarily by a user charge or activities where the periodic measurement of net income is deemed appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the Village's governmental and proprietary funds. Eliminations of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenue and expenses from nonoperating items. Operating revenue and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of our proprietary funds relates to charges to customers for sales and services.

Operating expenses for proprietary funds include the cost of source of supply, transmission and distribution maintenance, and administrative and general expenses, including depreciation and capital assets.

All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

When both restricted and unrestricted resources are available for use, it is the Village's policy to use restricted resources first, then unrestricted resources as they are needed.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

#### Cash

Cash includes cash on hand and demand deposits. The Village considers all short-term debt securities purchased with maturity of three months or less to be cash equivalents.

#### **Investments**

Investments include certificates of deposit and are stated at fair value.

#### Receivables

Receivables consist of all revenues earned at year-end but not yet received.

Outstanding balances between funds are reported as "due to/from other funds".

Any residual balances outstanding between the governmental activities and the business-type activities are reported in the governmental-wide financial statements as "internal balances".

#### <u>Inventories</u>

Inventories, which are immaterial in amount, are not recognized as an asset in the Enterprise Funds. Supplies, which are also immaterial in amount, are treated as expenditures at the time of purchase in the Governmental Fund types.

#### <u>Prepaid</u>

Prepaid amounts consist of payments for which the Village will have a future benefit and will be used up at a date beyond the current year-end.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

#### Capital Assets and Depreciation

Capital assets purchased or acquired with an original cost of \$1,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. The Village owns infrastructure assets such as water and sewer systems and roads and sidewalks. Depreciation on all assets is provided on the straight-line method over the following estimated useful lives:

Equipment and other	3-10 years
Vehicles	6 years
Buildings	50 years
Water and sewer mains	30-50 years
Water Towers	50 years
Water Meters	10 years
Other equipment	5-12 years
Infrastructure	5-50 years

The Village elected not to retroactively report some infrastructure assets, which is allowable under the provisions of GASB 34.

#### **Accounts Payable**

Accounts payable consist of items from which the Village benefited during the current fiscal year but has not yet paid.

#### **Accrued Compensated Absences**

Accumulated and unused sick leave at year end is recognized as a liability of the respective funds in which each employee's wages are reported. The liability is calculated based upon various labor terms. Total accrued sick leave at March 31, 2005, was \$7,290.

#### Deferred Revenue

Deferred revenue represents amounts for which the Village has received or is due to receive but has not yet earned. The revenues are deferred until the proceeds have been fully expensed/expended.

#### **Long-term Obligations**

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets.

#### **Inter-fund Activity**

Inter-fund activity is reported as payables and transfers. Both are eliminated upon consolidation.

#### **Property Taxes**

Property taxes are levied each July 1 on property located within the Village based on state equalized valuation. Real property taxes not collected by October 1 are turned over to Tuscola County for collection. The county reimburses the Village 100% for the delinquent real taxes.

For the year ended March 31, 2005, the Village assessed mills adjusted for Headlee rollback as follows: general operation 10.7697 and streets 2.2818, as adjusted by Public Act 5 of 1982 based on taxable valuation of \$14,868,607. The Downtown Development Authority captures property taxes based on taxable value increases in the district determined from the base year.

#### NOTE 2--Stewardship, Compliance and Accountability

#### **Budgets and Budgetary Accounting**

The Village employs the following procedures in establishing budgetary data reflected in the financial statements:

- a. Prior to April 1 of each year, the Clerk submits a budget for the ensuing fiscal year to the Council for review and possible revision.
- b. Prior to April 1 of each year, a public hearing is conducted to obtain taxpayers' comments.
- c. Prior to April 1 of each year, the budget is approved.
- d. Budget amounts as originally adopted are amended by the Village Council as necessary throughout the year.

#### NOTE 3--Cash and Investments

The Village is authorized by the State of Michigan to deposit its funds in banks, savings and loan associations, or credit unions having a principal office in Michigan.

The Village is also authorized to invest in the following:

- a. direct bonds and obligations of the U.S. or agency or instrumentality
- b. CDs, savings accounts with banks, savings and loan associations, or credit unions which are insured with the applicable federal agency
- c. Commercial paper within three highest rate classifications by at least two rating services, maturing not later than 270 days after the date of purchase. Not more than 50% if any fund may be invested in commercial paper at any time
- d. U.S. or agency repurchase agreements
- e. Bankers' acceptance of U.S. banks
- f. Mutual funds investments which local unit can make directly

The FDIC insures up to \$100,000 per demand deposit and \$100,000 in time deposits. The Village of Mayville has assigned custodial responsibility to various Trustees in such a way that all deposits of the Village of Mayville are insured. Investments consist of certificates of deposit. A summary of cash and investments follow:

	insured		Collateralized		Ininsured ollateralized	Total	
Governmental Activities							
Cash	\$	191,479	\$	-	\$ -	\$	191,479
Investments		-		-	144,197		144,197
Business-type Activities							
Cash		102,508		-	-		102,508
Total Deposits & Investments	\$	293,987	\$	_	\$ 144,197	\$	438,184

#### NOTE 4--Interfund Receivables and Payables

The composition of inter-fund balances as of March 31, 2005, is as follows:

Due To/From Other Funds

Receiva	able		P	ayabl	е	
General	\$	5,246	Major Street		\$	5,246
General		2,763	Local Street			2,763
General		12,510	Sewer			12,510
General		2,312	Water			2,312
	\$	22,831		_	\$	22,831
Debt Service	\$	13,677	Sewer	_	\$	13,677
Water	\$	34,938	Sewer	=	\$	34,938

The composition of inter-fund transfers as of March 31, 2005 is as follows:

Transfers In/Out

Transfer	s In	Transfers Out					
Local Street	\$ 8,526	Major Street	\$ 8,526				
Debt Service	15,555	Major Street	15,555				
Debt Service	15,555	Local Street	15,555				
	\$ 31,110		\$ 31,110				

The majority of interfund receivables and payables for the Village consist of amounts due from water, sewer, garbage and storm sewer fees. The majority of interfund transfers consisted of payment from Major and Local Street Funds to Debt Service Fund for payment of storm sewer contract principal and interest.

#### VILLAGE OF MAYVILLE NOTES TO FINANCIAL STATEMENTS

Totals	\$	565,000	\$	251,625	\$	816,625	

For the year ended March 31, 2005, the total interest paid on bond debt was \$28,875.

#### NOTE 7--Restricted Cash

The amount of \$50,000 in the Enterprise Fund is restricted by a bond agreement.

#### NOTE 8--Risk Management

The Village is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Village Council participates in the Michigan Municipal League Workers Compensation Fund Self Insurance Pool (SIP), a public entity risk pool currently operating as a common risk management program for public entities in the State of Michigan. The MML Workers' Compensation fund serves more than 800 cities, villages, townships, and other governmental agencies. The Village pays an annual premium to SIP for its worker's compensation coverage. The SIP is self-sustaining through member premiums.

In the event of unusually high claims, the SIP has the authority to bill the Village retroactively. The Village continues to carry commercial insurance for other risks of loss, including employee health and accident insurance.

#### NOTE 9--Storm Sewer Construction and Financing Contract

The Village of Mayville has entered into a contract with the County of Tuscola dated December 1, 1996, and amended January 1, 1999. The contract provides for the construction and financing of improvements to existing storm sewer systems of the Village of Mayville. It is the intent of the parties that the County of Tuscola issue bonds to pay the cost of construction of \$1,350,000. The bonds, known as Tuscola County Limited Tax General Obligation Bonds (Village of Mayville Storm Water System), were issued April 18, 1999, and bear interest at the rate of 5.125%. Semi-annual payments sufficient to pay interest and principal will be made to the County of Tuscola from the Village of Mayville for a period of forty years or until such times as all bonds issued by the County to finance this project are paid in full.

#### NOTE 10--Defined Contribution Money Purchase Plan

The Village provides pension benefits for all eligible employees through the Village of Mayville's Money Purchase Plan. The Village contributes 8.25% of annual compensation. Contributions for any year may not exceed the lesser of 25% of each participant's compensation or \$41,000.

During the year ended March 31, 2005, contributions of \$11,863 were made on behalf of the covered employees. Employees contributed \$4,254 to the plan. Current year total payroll and covered payroll were \$223,202 and \$164,350, respectively.

#### NOTE 11-GASB Pronouncements Adoption

As of and for the year ended March 31, 2005, the Village implemented the following Governmental Accounting Standards Board pronouncements:

#### **Statements**

- No.34 Basic Financial Statements and Management's Discussion and Analysis — for State and Local Governments
- No.37 Basic Financial Statements and Management's Discussion and Analysis – for State and Local Governments: Omnibus
- No.38 Certain Financial Statement Note Disclosures

#### **Interpretations**

 No.6 – Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements.

The above pronouncements are all related to the new financial reporting requirements for all state and local governments. These pronouncements are scheduled for a phased implementation (based on the size of the government) through fiscal years ending in 2005.

The more significant of the changes required by the new standards include:

#### Basic financial statements that include:

- Government-wide financial statements, prepared using the economic resources measurement focus and the accrual basis of accounting;
- Fund financial statements, consisting of a series of statements that focus on a government's major governmental funds and enterprise funds;
- Schedules to reconcile the fund financial statements to the government-wide financial statements;
- Budgetary schedules;
- Notes to the basic financial statements.

# VILLAGE OF MAYVILLE NOTES TO FINANCIAL STATEMENTS

#### NOTE 11-GASB Pronouncements Adoption (continued)

As a result of implementing the GASB 34 statement, the following restatements were made to the beginning balance of net assets:

As of April 1, 2004	
Fund Balance-Governmental Activities	\$ 249,399
Capital Assets	903,615
Accumulated Depreciation	(551,332)
Long-term Debt	(1,298,020)
Net Assets-Governmental Activities	\$ (696,338)

#### NOTE 12-General Fund Balance

The General Fund Balance had been designated at March 31, 2005, as follows:

	Des	signated
Designated by Village Council for		
Equipment Purchases	\$	19,800

#### NOTE 13-Proprietary Fund Restatements

The comparative financial statements for the year ended March 31, 2004, for the Water and Sewer Funds have been restated to reflect GASB Statements 33 and 34 adjustments.

#### NOTE 14-Notes Receivable-DDA Fund

The Mayville DDA Board approved a loan in the amount of \$16,913 to a Mayville business owner for structural renovations to a storefront located within the boundaries of the DDA district. The agreement call for 59 monthly payments of \$129 and one final balloon payment of \$12,614 based on an annual interest rate of 4.5 percent.

#### VILLAGE OF MAYVILLE NOTES TO REQUIRED SUPPLEMENTAL INFORMATION

The Debt Service Fund was determined to be a major fund within the governmental activities of the Village. As required by GASB Statement 34, governments should report budgetary comparison schedules for each major governmental fund that is required by law to adopt a budget. The Village of Mayville was not legally required to adopt a budget for the Debt Service Fund, thus eliminating the requirement to present budgetary comparison information.

REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING
STANDARDS

May 11, 2005

Members of the Village Council Village of Mayville, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Village of Mayville, Michigan, as of and for the year ended March 31, 2005, which collectively comprise the Village of Mayville, Michigan's basic financial statements and have issued our report thereon dated May 11, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### Internal Control Over Financial Reporting

In planning and performing our audit, we considered Village of Mayville, Michigan's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operations that we consider to be material weaknesses.

Members of the Village Council May 11, 2005 Page Two

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether Village of Mayville, Michigan's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management and the Village Council and is not intended and should not be used by anyone other than these specified parties.

May 11, 2005

Members of the Village Council Mayville, Michigan

In planning and performing our audit of the financial statements of Village of Mayville for the year ended March 31, 2005, we considered its internal control in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

During the course of our audit, we became aware of two matters that are opportunities for strengthening internal controls and operating efficiency. They are as follows:

#### Segregation of Duties

For the year ended March 31, 2005, we reviewed internal controls over financial reporting and deemed controls appropriate. Despite the limited size of the Village's personnel, we believe the current system of segregation of responsibilities is acceptable.

We encourage the Council to maintain an appropriate segregation of responsibilities within the accounting function and to maintain fiscal oversight over financial matters.

#### **DDA Loan**

In April 2004, the DDA Board approved a loan to a local business owner for structural renovations to a storefront located within the DDA district. We could not find any DDA documentation or legislation to support the DDA's ability to loan money collected from special assessed property taxes to local businesspersons. However, after discussion with the Michigan Department of Treasury, we do believe there is room for interpretation within Public Act 197 that may support the ability of the DDA to loan money to business owners within the DDA for activities outlined in the DDA's Tax Increment Financing Plan.

Members of the Village Council May 11, 2005 Page Two

We recommend that the Village consult with its attorney regarding the legality of loaning property tax money to individuals for improvements within the district.

We will review the status of these comments during our next audit engagement. We have already discussed these comments with the Village Clerk and will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations.
